NUMISMA

JULY-AUGUST, 1957 VOL. 4, No. 4
SUBSCRIPTION; 6 ISSUES FOR \$1.00
THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.

TERMS OF SALE

- Postage extra on orders under \$5.00. Please order by number.
- Remittance must accompany order, unless purchasers have established credit with us. CASH ORDERS receive preference.
- REMITTANCES FOR UNFILLED ORDERS PROMPTLY RE-FUNDED.
- All material is UNCONDITIONALLY GUARANTEED to be as represented.
- At time of mailing, all items are in stock. All offers are subject to prior sale; prices are subject to change without notice.

the Editor's Desk -

is tardy "Numisma" concludes the offering of small California coins, at fixed prices, which commenced in the "March-April" issue released early last July. A nice selection of the very lar and seldom seen Round dollars is included, and we can only est prompt action concerning them. Since many items offered in the Small California Gold series were duplicated in our stock, a great many types and varieties are still available. For nterested collector wishing to specialize in these diminutive coins, re prepared to offer specialized lots and collections of the three minations, expertly attributed and attractively priced.

e U. S. Encased Postage Stamps listed herein have all become ult to obtain in recent years. However, they are still underd, considering the limited number available, their strong histassociation, and the fact that both stamp and coin enthusiasts ter them. Of course, with all due respect to friend Bob Friedberg, eries does need a good book, listing all varieties, showing actually, and finding some way to correctly evaluate condition. Indeed pages, by either Meghrig or the Raymond people, would of e also help. Select specimens are hardly ever seen, but collectors remember that "pinched" or scaled mica on a piece does not itute a defect. Mica is a natural mineral formation, and very pieces completely without inherent flaws were available to the rs of the Gault stamps. Type sets of Encased Postage, consisting e example each by either (or both) denominations and advergepresent an interesting numismatic challenge.

with Encased Stamps, the field of small size U. S. paper has somewhat ignored, and is resplendent with real "sleepers." The ime to obtain maximum enjoyment and to anticipate profit from es is when latent interest is generally shown and demand light. Ody can buy at the peak of the market . . . as all too many nemorative and modern proof set buyers well know.

e invite correspondence concerning both our offerings and your ican numismatic problems. Let us hear from you during 1958—

THE QUESTION FORUM

We invite our readers to submit any questions or problems relating to U Early American or Canadian Coins, Medals, Tokens, Literature, etc., include Patterns, Restrikes and similar material. The questions of most general interval be answered in detail here; others will receive written replies on receipt a stamped self-addressed envelope.

Ques. Why are the Blue Book (Yeoman Handbook) prices the 1846 and 46 "O" silver dollars so nearly equal when the mi ages are so unlike, and when dealers charge so much more for 46 "O"? M. M. W., Menasha, Wisc.

Ans. The Handbook is intended for laymen and/or children terested slightly in, or just beginning to collect coins. As we has pointed out on many other occasions, the value of a coin is goverend by its genuineness, its rarity (in terms of actual number avable to collectors, usually a nearly fixed small percentage of number minted), its condition, and a variable factor dependangely on the popularity of the series to which the coin below These subtleties can be only dimly reflected in a book such as Handbook, which typically lists what some dealers are willing to for coins in well worn condition. In Good or thereabouts there is too much dealer interest in Liberty Seated dollars, and the differe in desirability of the two you named is not so apparent as it we be at the Uncirculated level. Dealers' selling prices are more like to be based on the Raymond Standard Catalogue, as the curre Guidebook is largely obsolete owing to a tremendous advance some series.

Ques. The Guidebook shows varieties 1826 over 25 and 18 Large Letters in the Large Cent section. Newcomb does not ment either. Do they both exist? What Newcomb numbers correspond them? Are they rare? V. W. A., Floral Park, N. Y.

Ans. The 1826/5 is the Newcomb 8, identifiable at long ra by the spacing of the date 1 8 26. It is incorrectly illustrated in Guidebook, which shows a N-1 over the overdate caption, and real overdate over the Wide Date caption. Newcomb says this var has die crumbling within the 6. He evidently slipped up, however real die crumbling should vary from light to heavy, and this is a stant; moreover, uncirculated specimens uniformly show that we is within the top curve of the 6 is actually the upper stroke of a and some early strikes show in addition part of the knob of a 5 lower left loop. Moreover, the reverse of the N-6 is extremely sim to two dies (A and I) of 1825. The variety misidentified as overdate in the Guidebook and often sold in error as such—Nhas one and sometimes two dashes after the 6 but no discern trace of overdate; after this publication it should no longer concollectors. The 1833 Large Letters listing should be deleted. We have recently examined uncirculated specimens of all five reverse dies 1833 and there is no genuine difference of size in the letters—same punches were used on all these dies. On some weakly strexamples some letters may appear thinner and smaller but this continuation justify a separate listing.

Ques. I have recently read in the "Numismatist" about so 1928 half dollars with a "D" mintmark, seemingly genuine althorsupposedly no halves were coined outside San Francisco that ye To complicate matters further, I have a 1928 half with no mintmat all, indicating possible Philadelphia coinage. It is somewarker than a regular "S" mint specimen, but no more the several other branch mint coins picked up in circulation; its I is the same as any other half. Some dealers have suggested that mintmark filled up as with the 1922 "D" cents; others could on a explanation. What can you say about this coin and the obsimilar ones recently publicized? R. A. J., Greenville, Miss.

Ans. It is hard to evaluate your coin without seeing it. Hower let us assume that it is of the same fabric and workmanship as 1914 "D", 1927 "D", 1928 "D" and other halves, 1930 "D" other dimes, and similar coins of years when none were struck those mints. To the best of our knowledge, these are counterfermade of good silver and struck from excellent false dies—evidence better technical facilities than those available to American crings. They were made, along with many worn-appearing (datele Liberty Standing quarters, prior to and during World War II—

bably to the present day—in the Soviet Union. Evidence of this actice turned up during the war, but nothing was dane because of probability of antagonizing what was then called our "gallant iet ally"! The Soviet technical experts evidently perfected same cess of transferring genuine designs from cains to plaster and mapper plaster to steel dies, the latter presumably by same machine illar to the Contamin portrait-lathe used in the Philadelphia and wer Hill (English) mints for over a century. They also have good er, heavy presses and collars—equipment available to na American interfeiter. The purpose has nothing to do with numismatics. So as we know these cains were intended (like those made by the nese and Italian imitators of American gold coins) to pass as irculating medium. Silver, or gold, in the farm of coins seemingly ked by a stable government, can be spent at a far better rate. has a higher purchasing power) than its bullion price as ingats. Soviet imitations have evidently succeeded, as to date all cimens seen are considerably warn. The differences between them the genuine are microscopic. It is highly likely that other dates e been manufactured and passed unnaticed. Fortunately for us, quantities passed in this country have apparently been tao small disturb the economy.

Kirkpatrick & Gault, N.Y.C. 3¢. EP-50. EF-AU, original sil-
vering; really choice! RRR, not in Dunham or Foster. Best
we've seen. \$89.50 VG-F, mica crazed. \$42.50
- 5¢. EP-83. Practically Unc., full orig. silvering and a
beauty. \$19.75 EF or so. \$15.50 Same, mica crack but
stamp bright. \$12.50 Nearly full silvering but mica cracked, stamp badly faded. \$10.00 EF, nice mica and
\$9.50 — 10¢. EP-120. Splendid Unc., full orig. silvering, but show-
ing a couple of tiny spots. \$22.50 EF or so, part of silver-
ing adhering Nice \$19.00
— 120, EP-152, Exact match for 5264a above Retter than
Dunnam s; none in Clarke or Foster Very rare \$38.75
- 24¢. EP-171. Same grade; by far the best we've heard
- 24¢. EP-171. Same grade; by far the best we've heard of. \$87.50 Abt. EF. \$74.50 VF, mica imperfect as made.
\$66.50 AVE, stamp a dull gray \$50.50
- 30c, EP-181. VE-EE excellent mica; stamp bright DDD
particularly so choice. \$89.50 Same, frame irregular as
midde, and cleaned; splendid mica, dull stamp \$79.50
— 90¢. EP-187. Dark dull greenish-blue stamp. VF plus,
mica scaling as made, trame with traces of cleaning. A
little better than Clarke's. The Green-Dunham piece was
labeled "Unique." Definitely Rarity 7. \$235.00
Lord & Taylor, N.Y.C. 3¢. EP-51. EF, some original silvering;
mica scaled as made. Record of \$57.50 in 1956 for one not as nice. Another R-7 item! \$78.00
- 5¢. EP-84. VF, similar mica; one frame spot. RR, better
than Dunham's: not in Wilcox Clarke etc. \$60.50
than Dunham's; not in Wilcox, Clarke, etc. \$69.50 — 10¢. EP-121. EF, frame a bit spotty, mica excellent,
stamp bright. Best we've seen. Ex Foster. Unappreciated!
\$77.50
— 126. EP-153. Slightly better than last RRR none in
Dunham; first we've handled. \$137.50 Mendum's Family Wine Emporium, N.Y.C. 1¢. EP-21. EF or
Mendum's Family Wine Emporium, N.Y.C. 1¢. EP-21. EF or
so. \$22.50 Same, mica cracked. \$14.50 — 12¢. EP-154. VF but mica lightly scratched, frame badly
- 12¢. EP-154. VF but mica lightly scratched, frame badly
cleaned and stained. RRR, ex Clarke. \$85.00
B. F. Miles, Peoria. 5¢. EP-86. This was VF but frame is
dented, mica lightly cracked and scratched; stamp red-
brown and still bright. Far, far finer than Clarke's, the only other offered of this high R-7 item in many years.
The only firm wholly lacking in the Dunham collection.
Best we've handled!
Best we've handled! \$125.00 John W. Norris, Chicago. 10¢. EP-124. EF; RRR. \$135.00
North America Life Insurance, N.Y.C. 16 FP-74 [NICHID.
ANCE straight. AU, almost full oria. silvering \$34.50 VE
to EF, fairly nice. \$26.00 1¢. INSURANCE curved. VF-EF; rarer than the other
- 1¢. INSURANCE curved. VF-EF; rarer than the other
type. \$30.00 Same, tiny case corrosion spots (possibly
removable)
- 3¢. EP-53. INSURANCE straight (as on all seen).
Choice EF, splendid mica, bright red stamp. \$23.50 Very
\$18.50
- 5¢. EP-88. INSURANCE straight. VF, mica slightly im-
periect as made. KKK and linderrated, none in Dunham and
Clurke, Ex Foster; one of a very few known! \$77.50
Sands Ale. 100. EP-128. VF. mica "pinched" in several
places as made, but otherwise excellent, stamp bright
RRR, this firm unrepresented in Clarke. Not in Dunham; Mehl could find no records of the 10¢

5283	EF, choice. \$125.00 VF, poorly cleaned and stained (
5284	John Shillito & Co., Cincinnati 36 ED 56 EE July 100
